PROFILE SUMMARY

Results-driven Computer Science graduate specializing in Artificial Intelligence with strong expertise in programming, problem-solving, and software development. Skilled in designing and developing real-time and AI-driven applications with a focus on scalability, performance, and user experience. Proficient in Python, web technologies, and foundational cloud services. Demonstrates strong analytical thinking, adaptability, and teamwork. Seeking an entry-level opportunity to apply technical knowledge and contribute to innovative and impactful solutions.

TECHNICAL SKILLS

Programming Languages: Python, C, SQL

Web Technologies: HTML, CSS, JavaScript

Cloud Technologies: AWS (EC2, S3 – Fundamentals)

Core Concepts: Data Structures, Object-Oriented Programming, AI & Machine Learning Basics

Tools & Platforms: Git, Visual Studio Code

Soft Skills: Problem Solving, Debugging, Analytical Thinking, Team Collaboration, Adaptability

PROJECT EXPERIENCE

Edge AI Emotion Recognition & Music Recommendation System

Technologies: Python, AI Concepts, APIs

- Developed a real-time emotion recognition system using AI techniques to analyze facial expressions
- Implemented a recommendation engine to suggest music based on detected emotional states
- Optimized system performance by reducing latency and improving response time
- Enhanced user experience through personalized and adaptive outputs

Inventory Management System (Medical Domain)

Technologies: Python, SQL

- Designed and developed a medical inventory system for efficient stock management
- Implemented tracking features for stock levels, expiry dates, and supplier details
- Automated manual processes, significantly improving operational efficiency
- Created a structured and normalized database for fast and reliable data retrieval

MedTrack – Health Monitoring Application

Technologies: Python, HTML, CSS

- Developed a health monitoring application to manage and track user health data
- Designed a clean and user-friendly interface for improved usability
- Ensured secure and structured data handling and storage

Weather Forecast Monitoring System

Technologies: JavaScript, APIs

- Built a real-time weather application using external APIs
- Displayed key weather metrics including temperature, humidity, and conditions
- Designed a responsive UI with proper error handling mechanisms

Personal Portfolio Website

Technologies: *HTML, CSS, JavaScript*

- Developed a fully responsive personal portfolio website — Live at: <https://portfolio-two-ochre-71.vercel.app>
- Showcased technical skills, projects, and achievements effectively
- Improved user engagement through clean and intuitive UI/UX design

INTERNSHIP EXPERIENCE

Full Stack Python Developer Intern – CodeTantra (2025)

- Developed and maintained web applications using Python technologies
- Worked on frontend and backend integration for seamless functionality
- Improved code quality through debugging, testing, and optimization
- Collaborated with team members using version control and best coding practices

EDUCATION

B.Tech – Computer Science and Engineering (Artificial Intelligence)

PBR Visvodaya Institute of Technology and Science

2022 – 2026 | Aggregate: 82%

Intermediate (MPC)

Sri Chaitanya Junior College

2020 – 2022 | Aggregate: 93.5%

SSC

Sri Sai Vidya Nikethan English Medium High School

2020 | Aggregate: 98%

CERTIFICATIONS

- AWS Certification – The Website Makers (2026)
- Employability Skills Program – EduBridge & Infosys (2025)
- Java Fundamentals & Data Structures – edX (2023)
- C Programming Certification – Igate Solutions (2022)

ADDITIONAL INFORMATION

Languages: Telugu, English, Hindi

Interests: Drawing (Portraits), Creative Editing, Script Writing

Strengths:

- Quick Learner with ability to adapt to new technologies
- Strong Analytical Thinking and Problem-Solving skills
- Effective Team Player with good communication skills
- Self-motivated and detail-oriented
